Tackle market challenges and add certainty to your retirement savings

You've probably weathered your fair share of market volatility, rate swings, and inflation over the years. The good news is, you can protect your money from losses, and focus on the long term by locking in growth with a *Lincoln OptiBlend*® fixed indexed annuity.

Most investors agre protection is import

87%

We've found that 87% of inve they'd prefer to invest in a sc protects them from market v if it means fewer gains in up

Lincoln Financial, "Consumer Sentime

A powerful strategy with three key benefits for your retirem

Upside growth potential

You can choose to guarantee growth with a fixed interest rate every ye and position yourself for higher growth potential based on positive inc performance.

100% downside protection

Your account will never be credited less than 0% — even in a down ma So, your retirement savings are protected.

No cost

There are no ongoing product charges,[1] which helps you save more o you earn.

[1] Beginning in the first contract year, during the surrender charge period, you can withdraw up to 10% of your accoun contract year without incurring charges or a Market Value Adjustment.

Get growth potential with a range of choices

You can mix and match these account options to create a strategy that helps meet your financial goals. How the accounts work:

Fixed

- Fixed Account

Your money has guaranteed growth
Your account is credited a fixed interest rate that's guaranteed for one year regardless of market performance. A new interest rate is declared annually.

Dual Trigger

- 1 Year S&P 500 Dual Trigger

Your money can grow in up, flat and down markets
Your account is credited a set rate in an up or flat market. If the index is negative by less than the value of the rate, the difference is credited.

Trigger

- 1 Year S&P 500 Performance Triggered
- 1 Year S&P 500 10% Daily Risk Control Trigger
- 1 Year S&P 500 10% Daily Risk Control Trigger Lock[1]

Your money can grow in up and flat markets
Your account is credited a set rate in an up or flat market. Choose from an account with a guaranteed rate for a specified number of years, or one that resets each year.

Cap

- 1 Year S&P 500 Cap
- 1 Year S&P 500 Cap Lock[1]

Your money can grow up to a cap
Your account is credited any index growth at the end of the indexed term, up to a cap. Choose from an account with a guaranteed rate for a specified number of years, or one that resets each year.

Participation

- 1 Year S&P 500 Participation
- 1 Year Nasdaq Priva Participation
- 1 Year Capital Group Dividend Value ETF Participation
- Multi-Year S&P 500 Participation[1]
- Multi-Year S&P 500 10% Daily Risk Control Participation[1]

You participate in the growth of the index or ETF
Your stated participation rate is multiplied by any positive index or ETF performance at the end of the applicable term.

Indexed interest is based on the respective index or ETF: 500 Daily Risk Control 10% Index, and the Capital Group (CGDV).

[1] The durations of the guaranteed perio cap lock accounts, and indexed term accounts, are determined by the surr annuity. Please see applicable Fact S option(s) available.

Fixed and indexed rates are declared company at its discretion, unless gua where indicated. Subsequent rates m initial rates and may be different from

Trigger accounts are a simple way to lock in growth in up, flat and even down markets

Let's take a closer look at how they can help you grow and protect your money, no matter what the market does.

All of our trigger accounts lock in growth in up and flat markets

The index is up	**Your account grows.** The full rate is credited.
The index is flat	**Your account grows.** The full rate is credited.
The index is down	**Your account is 100% protected.** No interest is credited.

The Dual Trigger account also helps you lock in growth, even in down markets

The S&P 500 Index is down less than the trigger rate	**Your account grows.** It is credited the difference of the negative return and trigger rate.
The S&P 500 Index is down by the value of the trigger rate or more	**Your account is 100% protected.** No interest is credited.

Benefit from diversification in all markets

A well-diversified portfolio can be an effective way to enhance your earnings potential. Let's take a look at how our complementary strategies could have helped you capture growth potential in up markets, and provided 100% downside protection in down markets over the last ten years.

ABOVE AVERAGE MARKETS

- **Cap accounts** offer growth potential up to a cap, allowing you to benefit when markets are up — with options for a multi-year rate guarantee.
- You can position yourself for **more upside growth** potential and better diversification by also allocating to a **participation account,** including options for multi-year rate certainty.

BELOW AVERAGE MARKETS

- **Trigger accounts** are especially valuable in times of positive — but muted — performance.
- You can still get the **full specified rate** as long as the index is flat or positive — with options for a multi-year rate guarantee.

DOWN MARKETS

- *Lincoln OptiBlend*® offers **100% downside protection**, helping you create a more resilient portfolio.
- It can even provide positive crediting with the **Dual Trigger** account.

4 out of 10 years: highest returns

KEY TAKEAWAY: In four of the last ten years, the S&P 500 Index had returns of around 20% or higher.[1] Likewise, the 1 Year S&P 500 Participation account would've offered **double-digit returns** four out of the last ten years.[2]

7 out of 10 years: full guaranteed grow

KEY TAKEAWAY: The 1 Year S&P 500 Performance Triggered, 1 Year S&P 500 10% Daily Risk Control Trigger, and 1 Year S&P 500 10% Daily Risk Control Trigger L accounts would have credited the **full specified rate seven out of the last ten years**

3 out of 10 years: protection and growt

KEY TAKEAWAY: The market was negative three of the last ten years, but you could have **locked in growth** during two of those years with the 1 Year S&P 500 Dual Trigger account (and benefited from 100% protection the other year).[3]

[2] This example assumes a 52% participation rate.
[3] This example assumes a 7% trigger rate.

Access flexible benefits if you need them

Tax-deferred growth

Keep more of what you earn while growing your portfolio. You won't be taxe growth until you withdraw your money.

10% free withdrawals

Beginning in the first contract year, during the surrender charge period, you withdraw up to 10% of your account value each contract year without incurr charges or a Market Value Adjustment (MVA).[1]

Income to help meet your needs[2]

You can receive income for life or for a period of time by choosing from sev options available to you.

Access for medical needs

If you have a qualifying medical need, *Lincoln OptiBlend*® has a nursing hom terminal illness provision that allows you to access your money without cha the first contract year.[3]

A legacy for your loved ones

Before your contract is annuitized, any remaining account value will pass to beneficiaries as a death benefit.

[1] The MVA is a positive or negative adjustment based on the current interest rate environment at the time of the witho not apply to withdrawals after the surrender charge period, 10% free withdrawals, the death benefit, annuitization or issued in select states. In California there is no Market Value Adjustment and the surrender charges are different.

[2] Annuitization can occur after the fifth contract year or after the first for Florida. Once income streams are started, a cannot be stopped. Withdrawals (including amounts paid as a death benefit) and any charges are deducted first fro Account. Money taken from the Fixed Account will reduce the actual amount of interest credited. After the Fixed Ac exhausted, withdrawals (including amounts paid as a death benefit) and any charges are deducted proportionally fr interest accounts. Money taken from an indexed interest account will not receive any indexed interest for that index

[3] Nursing home rider not available for contracts issued in Massachusetts.

A history of strength and stability

1905
Lincoln founded

1918
Recognizing that people needed protection for retirement, Lincoln began offering individual annuities.

1930s
Out of the insurers founded in 1905, Lincoln was one of the few to weather the Depression. In fact, we reached $1 billion in in-force business.

2004
More than twenty years ago, Lincoln was among the first companies to offer fixed indexed annuities.

Fort Wayne, Indiana, circa 1905

In August 1905, Robert Todd Lincoln provided a photograph of his father, along with a letter authorizing the use of his father's likeness and name for company stationery and advertising.
